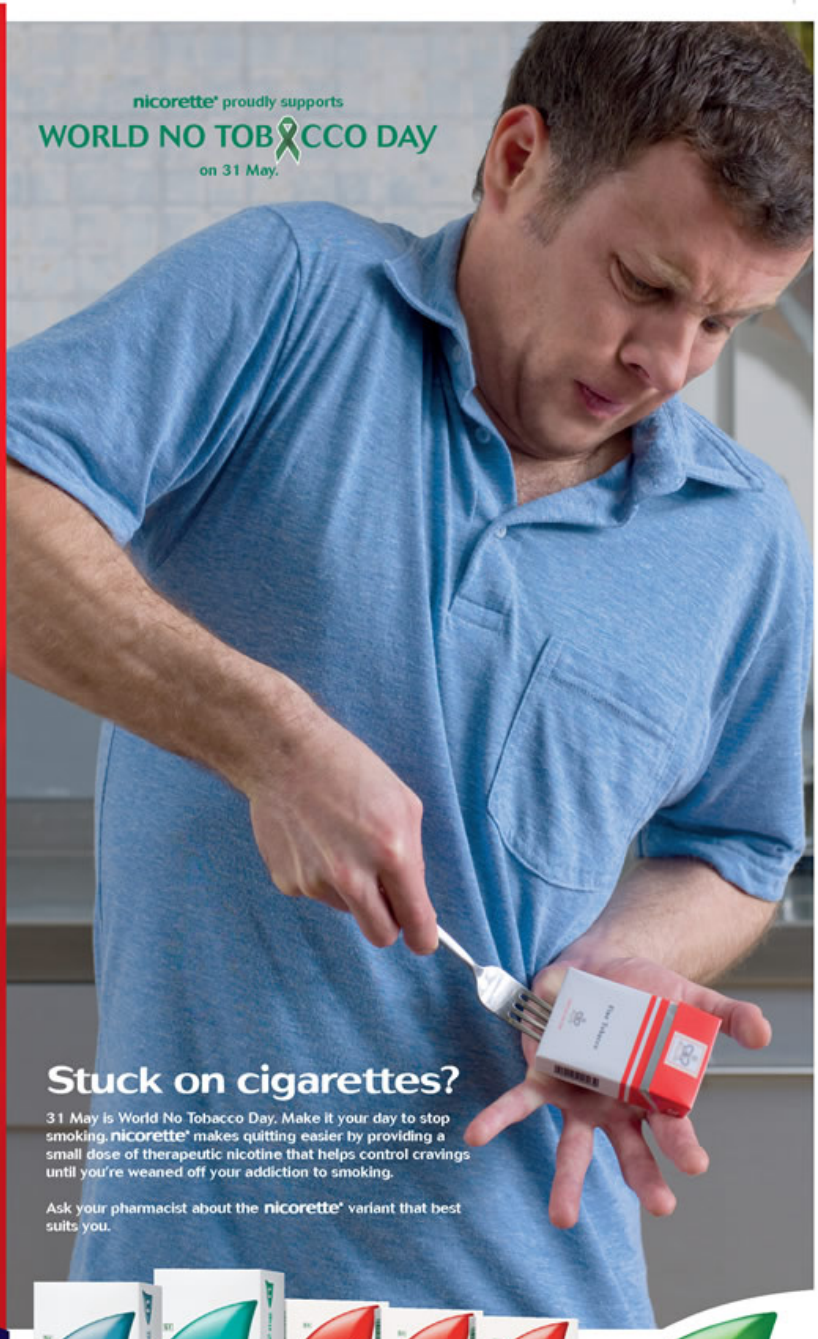
Smoking kills!

- **1.35 billion** people smoke worldwide, that's 1 out of every 5
- 1 000 persons **younger than 18** years of age become a regular smoker every day
- **5 million deaths** a year caused by cigarette smoking in the world, or about **1 out of every 5** deaths annually. **Smoking kills more people than alcohol, car accidents, suicides AIDS, homicide and illegal drugs combined.**
- The average life expectancy of a smoker vs a nons smoker is **14 years shorter**
- **Only 5** out of 100 people who attempt to quit smoking succeed.
- **More than 4000** individual compounds have been identified in tobacco and tobacco smoke, more than 60 of these are known **carcinogens**



nicorette
